

## 7. Medium Truck Mounted Wireline Unit with Hydraulic Power Pack or PTO

Medium Truck Mounted Wireline Unit is special designed using truck chassis that available in the market. The design sets a new standard for truck mounted slickline units where it is tough, reliable and high quality. The design includes a maximum operator comfort, optimum storage capacity, protection from working environments and ease of operations.

The unit is fully compatible for single reel with a separate source of power pack unit or combination from the truck unit. The mounted unit has the rigidness needed to bear the weight and forces of high-capacity winch drums.

### Specification

- Medium Truck 120 - 135 PS
- 16" Counter Head Assembly
- Compartment for PCE & Wireline Tools
- Stainless Steel Dashboard
- Sound and Heat Insulation
- Hand Wheel Drive level wind mechanism
- Front & Rear Suspension
- Shockproof well sealed glass for visibility to the engine & drum section for operator
- Right Angle Drive, Cable Counter & Odometer

### Power Pack

- Perkins 4 Cylinder Diesel Engine
- Output 85 HP @ 2,200 Rpm
- Rig Safe Safety Devices
- Electric Starter System
- 32 Gallons Hydraulic Oil Tank
- 27 Gallons Diesel Fuel Tank
- Hydraulic oil cooler

### Features and Benefits

- Ease Mob & Demobilization
- Robust Frame
- Friendly Control Design for operator
- Comfortable & spacious operator's cabin
- Emergency Shutdown System Installed
- Ultimate flexibility of wireline operations
- Full Aluminium for External Body
- Minimum maintenance system
- Complete documentations includes Certifications, Manual, Test Results, 3rd Party Inspection Reports & Spare Parts List

### Dimension and Weight

Length	Width	Height	Weight
5.55 m	2.20 m	3.30 m	5.000 Kg

### Options

- Zone II Safety Devices
- 4 x 4 Modification
- PTO Hydraulic System
- Air Condition for Operator Cabin
- Electric Generator for additional power supply
- Advanced Digital Speed Tension Unit (DSTU)
- Additional Crane, with specification :
  - Articulating / Telescopic Crane
  - Hydraulic outreach up to 10,45 m
  - Maximum Load 5 Tons
